Jonathon **Gardner**

Full Stack Developer

jonathongardner.github.io | jonathongardner | jonathongardner35

Summary

Accomplished Software Engineer with a proven track record of architecting high-performance systems and automating security compliance at enterprise scale.

Skills

Golang, Ruby on Rails, MySQL, MariaDB, PostgreSQL, GraphQL, MongoDB,
Codex, AWS, git, Linux, AWS, bash

Work Experience

Software Engineer

Feb. 2020 - PRESENT

Cisco

Raleigh-Durham, NC

- Spearheaded adoption of Go, successfully integrating it into targeted, high-impact projects.
- Developed binary Credential scanner and integraded into all Cisco releases, automating the verification, and mandatory rotation of leaked credentials.
- Architected the rewrite of a core firmware extraction tool (slashed processing time - 5GB disk 24 hours to 2 hours).
- Redesigned the SBOM data model to drastically improve API load times and enable point-in-time tracking.
- Drove Cisco's compliance with the SBOM Executive Order by developing a custom, fully compliant SPDX gem that signs SBOMs for cryptographic customer verification.

Ruby on Rails Software Engineer

Feb. 2019 - Feb. 2020

MODIS Contractor for Cisco

Raleigh-Durham, NC

- Led UI development of search page using an Apache Solr backend
- Developed APIs in Ruby on Rails to support users and UI
- Improved and maintained micro services using Sinatra and MongoDB
- Helped design and implement move from Ruby on Rails UI to ReactJS

Ruby on Rails Software Engineer

Jun. 2017 - Feb. 2019

ORAU Contractor for Environmental Protection Agency

Raleigh-Durham, NC

- Led development of APIs that support a single page web app using Ruby on Rails
- Increased and improved Ruby on Rails Tests to help identify and remove bugs
- Created and maintained Ruby gems to better follow Aspect-Oriented Programming (AOP) and Object-Oriented Programming (OOP) by separating concerns
- Helped develop a single page web app using Vue.js

Education

University of South Carolina

Jan. 2014 - Dec. 2016

Master of Science in Mechanical Engineering

Columbia, SC

- Defended thesis on Nuclear Waste research project.
- Research Assistant on DOE EPSCoR project developing FEM modules in a C++ MOOSE based application.
- Secretary of American Nuclear Society 2015-2016.

Georgia College and State University

Aug. 2011 - Dec. 2014

Bachelor of Science in Physics with a minor in Computer Science

Milledgeville, GA

- Two years of undergraduate research building and testing a 1/16th scale bladeless wind turbine.
- Physics Lab Assistant 2013-2014
- Teaching Assistant 2013
- Summer Leadership Project (2013, 2014) (Campus Outreach)
